

Safe Kids Savannah Child Safety Seat Inspection Station – Directions

Appointments can be made online at www.safekidssavannah.genbook.com

Thank you for scheduling an appointment to have your child safety seat inspected for proper installation. When you come for your appointment please make sure to have the following things with you:

- The car seat(s) that you wish to have inspected.
- All of the parts/pieces that go to your car seat(s) – including the **instruction manual**, if you have it.
- Your **vehicle owner's manual**, if you have one.
- If your children have been born they do not need to be present, however, we do need to know their **birth dates**, their **heights and their weights**.

When you come for your appointment you will be coming to Memorial Health. The address is 4700 Waters Ave. Savannah, GA 31404. If you put this in your GPS, it will not bring you to the exact location at the hospital where you need to be, it will bring you to the hospital in general. You will be coming to the Children's Hospital Outpatient Clinic (Bldg. 800). When you are driving on Waters Ave. there is a traffic signal at 63rd Street (Main entrance into the hospital campus, across from CVS and Calvary Baptist Church) and one at 65th Street (where Stillwell towers is, 20+ story apartment building), you will want to turn on to the hospital campus in between these 2 traffic lights. If you are coming from DeRenne Ave. you will see a digital sign for the Emergency Department and you will want to turn right, just before the sign, onto Metts Dr.

After you turn right onto Metts Dr., you will turn right into the parking lot of the outpatient center and drive through the breezeway. The building is across the street from Parking Deck B.

Please park alongside this curb/patch of grass here

Call the Safe Kids Savannah phone at **912.665.8385** when you arrive and someone will come out and meet you at your vehicle!
